

HIMANSHU R KHATRI

Application Architect | Cloud, Mainframe and Team Modernization Leader

himanshu.khatr@in.ibm.com | +1-401-255-5004 | <https://www.linkedin.com/in/himanshu-khatr-7b8390399/>

PROFILE

19+ years leading IT transformation in P&C insurance and healthcare, moving organizations from mainframe to cloud without breaking what already works underneath them. Equally comfortable writing the Terraform and Lambda architecture as running the multi-million-dollar modernization portfolio and cross-functional teams built on top of it. Recently carried that same architecture instinct into GenAI, winning IBM's 2026 ICA Bob-a-thon for a multi-agent claims advisor built on watsonx.

CORE SKILLS

Cloud & Architecture: AWS (Lambda, Glue, S3, Step Functions, SNS), application modernization, distributed systems, multi-agent AI (watsonx, Copilot Studio)

Data & Integration: ETL/data pipelines, REST APIs, event-driven architecture, IBM MQ, WebSphere

Legacy / Mainframe: COBOL, JCL, CICS, VSAM, DB2, REXX

DevOps & Monitoring: Terraform (IaC), uDeploy (Lambda/Glue releases), Git/CI-CD, CloudWatch, IAM & security

Leadership: Program/project management, Agile (Scrum/Kanban), financial forecasting, stakeholder & vendor management, mentoring

Domains: P&C insurance (Guidewire PolicyCenter, BillingCenter, ClaimCenter), US healthcare and Pharma Supply Chain

PROFESSIONAL EXPERIENCE

IBM Corporation — Jun 2010 – Present

Application Architect | *AMICA Mutual Insurance*

Jul 2025 – Present

- Lead cloud-native data and application architecture (AWS Lambda, Glue, S3, Step Functions) for enterprise Data Management initiatives, driving mainframe-to-cloud modernization.
- Define ETL/data pipeline architecture, IaC (Terraform), and IAM/security controls; mentor engineers and run design reviews across cross-functional teams.

Application Architect — Financial Modernization (PaaS) | *AMICA Mutual Insurance*

Jul 2024 – Jun 2025

- Led transformation of COBOL/Assembler financial logic into PL/SQL-based distributed frameworks, cutting conversion defects 30% and accelerating development cycles 20%.

Application Architect — Mainframe Decommission & Migration | *AMICA Mutual Insurance*

Aug 2023 – Jun 2024

- Directed phased retirement of mainframe applications with zero-downtime cutover; designed AWS S3 archival framework, cutting storage costs 20% and migration risk 40%.

Program Manager — IT Modernization & Data Initiatives | *AMICA Mutual Insurance*

Jul 2021 – Jul 2023

- Owned a multi-million-dollar modernization portfolio spanning legacy systems, life insurance platforms, and data governance; lifted delivery performance 15% and cut audit findings to zero.

Project Manager — Application Support & Modernization | *AMICA Mutual Insurance*

Jul 2020 – Dec 2020

- Managed core policy system enhancements and monthly rate revisions; cut turnaround time on business-critical changes 30% and reduced batch job failures 40%.

Technical PM — PolicyCenter Data Conversion & Integration | *AMICA Mutual Insurance*

Jul 2017 – Dec 2019

- Led Guidewire PolicyCenter data conversion across multiple state rollouts with zero critical defects at cutover; optimized batch workflows to cut execution time 35% and lifted conversion accuracy to 99.8%.

Technical Lead — BillingCenter Data Conversion & Integration | *AMICA Mutual Insurance*

Aug 2014 – Dec 2019

- Led Guidewire BillingCenter data conversion across multiple states with zero downtime at cutover; optimized batch jobs to cut execution time 40% and built reusable conversion templates adopted on later releases.

Technical Team Lead — Procurement, Inventory & Customer Systems | *AmerisourceBergen Inc.*

Jul 2010 – Jul 2014

- Delivered enhancements across procurement and inventory mainframe systems (COBOL, DB2, CICS), improving operational efficiency 20% and cutting batch job failures 35%.

Infosys Technologies Ltd, Pune | *Technology Analyst / Senior Systems Engineer*

Aug 2006 – Jun 2010

- Delivered enterprise healthcare applications for Aetna (provider data, enrollment systems), improving performance and turnaround time on mainframe platforms.

RECOGNITION

1st Place, All Regions — IBM Consulting ICA Bob-a-thon 2026 (*Team BobMavericks*)

Built PreClaimIQ, a three-agent sequential system on IBM watsonx / ICA Agent Studio that gives policyholders a clear coverage verdict before they file a claim, cutting ambiguity that otherwise leads to denied or withdrawn claims.

Top 20 — Microsoft Frontier Forge Buildathon 2026 (*Team121_Mavericks*)

Built CoverIQ++, an Auto and Home insurance risk advisory agent on Microsoft Copilot Studio using four AI Builder model actions, deployed to Teams and M365.
